

NOTICE of Public Hearing

The City of Hardin is preparing a Preliminary Engineering Report (PER) for the City's Water System. A public meeting where the City Council will be hearing information from Stahly Engineering regarding Water Improvement options and opinions of costs for the preferred alternative. Anyone interested in the City's Water system is encouraged to attend the meeting, ask questions, and offer their comments. The information gathered during the hearing will be included in the Preliminary Engineering Report (PER) being prepared for the City by Stahly Engineering & Associates.

The PER will provide the City with a document used in future grant applications. To be successful, grant applicants must demonstrate that their project will solve urgent and serious health or safety problems, is vital to their economy, is financially feasible, and enjoys strong public support. When the City of Hardin residents take an active role in selecting and planning the replacement of vital infrastructure that they rely on for their safety and the safety of their families, friends, and neighbors, the likelihood of success increases significantly.

The Public Meeting will be held at **6:30 PM on October 21, 2025 at the Council Chambers, 401 Cheyenne Ave, Hardin, MT**. People unable to attend the public meeting are encouraged to send their written comments to the City of Hardin Council at 406 Cheyenne Ave., Hardin, MT 59034 or by email at publicworks@hardin.mt.com.
